Do

Long, Heavy Hair?

Then treat your hair well. See that it is properly fed. Growth of every kind demands proper food. Starved hair splits at the ends, turns prematurely gray, keeps short and dry. Then feed your hair. Feed it with proper food, a regular hair-food. Feed it with Ayer's Hair Vigor. Thus help nature all you possibly can toward giving you rich, heavy, luxuriant hair. Ask your doctor about your hair and about Ayer's Hair Vigor. Follow his advice.

Ayer's Hair Vigor DOES NOT COLOR THE HAIR

WANT WATCH KEPT, FOR PIRATE-MURDERER

United States Marshal Elliott of San Francisco wants to find a man whom he supposes to be dead but who, he believes, may possibly be alive. The man is Frank Edward Wood, who, together with George Washington Wise, on August 21 held up and attempted to capture the steamer Buckman en route from Seattle to San Francisco. They killed Captain Wood but failed in the attempt to capture the steamer. West or Wood, jumped overboard and is supposed to have been drowned, but Marshal Elliott thinks that there is a chance that he was picked up by some vessel or succeeded in swimming asbore. So he has written to the local federal police authorities to keep a lookout for the murderer and pirate. The letter is a follower. as follows:

JAP BLACKMAILERS WANT 500,000 YEN

100,000 in "Queer" Currency May Have Been Shipped to America.

TOKIO, August 26. - The Jupanese ceret service has been informed, through one of its agents in America. that several Japanese and Chinese are in New York with part of a "queer' issue of Chinese government money. The story, as told by the Kokumin Shimbun, is that there has been an overissue of at least 1,000,000 yea in Chinese paper currency. The suspicions of the authorities were first aroused when Kushido Masaki, a member of when Kushido Masaki, a member of the Chipoda Life Insurance Company; Kimura Kaku, Osaki Marayami and Oka Mimura, interpreters in the Russo-Japanese war; a Chinese revolutionist named Song, and others held secret meetings at various places in Japan. These meetings, it is alleged, were in consequence of a plot to blackmail 500,000 yen out of the Mitsui Bussan Kaisha of Tokio.

Kimura and Mimura say they got the news in Shanghai; that when the viceroy of the Two Kiangs placed an order with the Mitsui Bussan Kaisha for 3,000,000 yen in paper currency the officials of the Mitsui Bussan persunded the officials of the Mitsui Bussan persunded the officials of the Jaanese printing bureau to print off 4,000,000 yen. What

The notes are genuine, in the sense they are officially printed, but hey are actually counterfeit, because they are stamped with numbers on notes of the issue of 3,000,000 yen. Ultimate-ly payment will be refused when the

in the newspapers and in other ways, the members of the board all professed the most profound ignorance concern-ing it. Trent was especially averse to taking any action and once more moved to have action postponed to some fu-

Attack on Campbell.

As soon as the meeting was called to order, Trent came to his feet with a mass of newspaper elippings in his a mass or newspaper clippings in his band and began his attack on Campbell. "I have," he said, "been by name accused of using my position on this board to do politics. It has been told me by persons whose veracity I can not impugn that these charges emanate from the land office. I wish to say a few words on this subject."

from the land office. I wish to say a few words on this subject."

Mr. Trent then read the account which appeared in The Advertiser of Friday, September 2, regarding the reconsideration of the board's action on the Kawailoalele proposition and said he wished the article spread on the records of the board.

records of the board.
"In order that the true facts may come out," he said, "there is no ground whatever for the statement that the meeting was held unexpectedly." Trent then rehearsed the proceedings of the previous meeting and explained that he had thought the Kawailoalele propo-sition should be investigated because so many applications had been with-drawn. He accused Commissiones Campbell of uttering a veiled threat in regard to what he would do to applicants who might fail to make good in the homesteading of the lands.

Trent went on to read all The Advertiser articles he could find in regard to the homesteading of public lands. He said he didn't want any action taken except to have The Advertiser story spread on the minutes.

Andrade Denies.

Andrade denied ever having had a hand in the making up of any petition, faked or otherwise. He didn't know who was responsible, and didn't care.

The motion to spread upon the minutes The Advertiser story and Trent's statement was seconded by Andrade and carried.

Trent moved to proceed with the business of the meeting. Where the Law Fails,

An opinion from Attorney-General Lindsay was read in reference to a proposed exchange of public lands. A man on one of the other islands owns land adjoining government land, and land adjoining government land, and also has two or three small pieces within a member of the legislature. A question has avisen as to whether or not the government tract. It was proposed to exchange a strip of the government land for the small pieces, so as to con-solidate the government holdings. The attorney-general's opinion was that while the exchange would be advan-

tageous to the Territory, the new land laws do not permit of its being made. Advertising Expense Great.

Commissioner Brown raised the question of expense for advertising. It thought they would find a nigger in the seemed to him an unnecessary expense to publish in three languages in all the islands all notices of the proposed disposal of public lands.
